Nice work! You had 1 minor error in your HTML, but I chose not to take points off for it. Be sure to get it fixed as I will take off points for HTML errors in the future.			Bree Brudnicki, Sep 30, 2021 at 9:20am

https://podcast-haven.glitch.me/index.html			Daen Antule, Dec 16, 2021 at 2:24am
The report does not specifically detail who the audience is.			
One of the requirements is that a link to the site plan be in the footer. It is not there so I cannot grade against that.			
Personally the background images that are moving are distracting with the colors that are being used. This is especially true for the transparency used on some of the page elements.			Ralph Borchers, Dec 18, 2021 at 5:17am
Those are things you need to consider when developing. Is it distracting to the users and if so what percentage will leave the page if things are too distracting?			
Good job overall, you have a good idea to keep building on with learning about databases and how to integrate with that so that you can make the reviews section dynamic and build the page automatically with multiple pages. WDD-230, CIT-160, CIT-225, and CSE-340 will all need to be taken to get to that point where you can start to see how that will work.
